

AA3000 - High Volume Boiler

This stylish and compact instant mains fed, stainless steel hot water boiler is ideal where large volumes are consumed. The High Volume Boiler dispensers can produce 17 litres in one go (after initial heat up) and a further 28 litres every hour. The new High Volume Boiler has a full digital read out which reports the boiler status and provides easy to read warnings of lime scale build up and a full diagnosis of any component problems. Thermistor controlled for constant temperatures of 98°C, the boiler also features an ECO mode which allows you to switch to energy saving half capacity during quiet periods.
